## Picture Perfect Recipes

### Balistreri Tomato Salad

#### Enjoy this family recipe

This fast and easy salad is guaranteed to impress! Simply start with a bed of arugula, spread across a large serving piece, (we recommend the rectangular platter pictured on the left for 24.99) then add a combination of hot house, heirloom, vine ripe, grape and cherry tomatoes. The trick is to use a variety of sizes and shapes, and then cut them differently to add texture. Top with fresh basil, sunflower sprouts, and crushed pepper. Finish with your favorite vinaigrette, and you're ready for a fabulous meal.

# Orchid Overload

## A Tropical Touch

Add delicate details to your home with easy-to-care-for orchid plants. These enchanting plants look great on their own and are even more spectacular when planted together. Combine several orchids in a statement container to create a beautiful and long-lasting centerpiece.

Orchids need little maintenance. Simply water your plant once per week and allow it to fully drain. Place it in a brightly lit area away from drafts and direct sunlight.
